

FULL-STACK SOFTWARE DEVELOPER

EUGENE YEO

I'm a full-stack engineer with passion for the outdoors, adventure & technical skills, and I pivoted into the tech industry to pursue a career that revolves around problem-solving and collaboration.

My drive for tech reflects my passion for rock climbing, caving, canyoning and mountaineering — growth through learning, teaching, and working as a team on expeditions. Like getting people stoked on technical skills in the outdoors, I get excited from people using the clean, responsive, and user-friendly applications I've built.

With a background in digital marketing and communications, I bring a creative mindset, strong human skills, and sharp attention to detail in project collaborations. I love making an impact, and I love tech for the endless opportunities to drive impact, problem-solve, and for breakthroughs that challenge my mind.

Experience

MAR - JUL 2025

FULL-STACK DEVELOPMENT STUDENT

Dev Academy Aotearoa

- An intensive 17-week program (60+ hours per week) focused on developing full-stack web applications using modern technologies, with a strong emphasis on hands-on learning, human-centric skills and team collaboration
- **Project-Based Learning:** Completed 7 group projects, using agile practices and collaborative workflows. Took on key roles such as product owner, Git keeper, and scrum facilitator
- **Human Skills Training:** Learnt feedback, collaboration, empathy and growth mindset techniques. Built strong communication, emotional intelligence, and self-awareness as part of daily practice

JAN 2022 - MAR 2025

SOCIAL MEDIA ADVISER

University of Otago

- Led content creation projects for research, community, and student life — garnering tens of millions of organic video views
- Applied trend research and content strategy to grow engagement and brand awareness
- Contributed to the University's Social Media Strategy and Communications Strategy refresh
- Collaborated with academics, students & senior leadership to develop and deliver impactful digital campaigns aligned with the University's brand & strategic goals
